As a professional stunt driver, I've had the opportunity to drive some of the most amazing cars in the world and perform some of the most daring stunts imaginable. But even though I've been behind the wheel of some of the fastest and most powerful cars on the planet, I know that the most important thing about driving is not speed or power, but safety.

That's why I'm so passionate about sharing my knowledge and experience with other drivers. I want to help everyone, from new drivers to seasoned professionals, learn how to drive safely and confidently. In my new book, 'Real World Instruction and Advice from Hollywood's Top Driver', I share everything I know about driving, from the basics of car control to the advanced techniques I use on the set.

Whether you're a new driver looking to learn the basics, or an experienced driver looking to improve your skills, my book has something for you. I cover everything from how to handle different types of terrain, to how to avoid accidents, to how to get the most out of your car.

I also share some of the stories from my career as a stunt driver. I've been involved in some of the most famous car chases in Hollywood history, and I've learned a lot about what it takes to be a safe and successful driver.

If you're looking to improve your driving skills and learn from one of the best in the business, then I encourage you to pick up a copy of my book. I promise you won't be disappointed.
